

Availability

Available where single phase, 120 or 240 volt service is available, subject to the established rules and regulations of LYREC for:

- (1) LYREC owned yard lights
- (2) Member owned, where 10 or more lights are on one meter
- (3) State Highway Interchange Lighting

Rates - Non-Metered Lights - Rate Class 71

\$5.50 per light per month for 175 watt mercury vapor light or equivalent

\$7.75 per light per month for 250 watt mercury vapor light or equivalent

\$8.50 per light per month for 400 watt mercury vapor light or equivalent

Condition of Service Non-Metered Lights

- (1) LYREC will install, own and maintain the light including the bracket for mounting and an automatic device to control the operation hours.
- (2) LYREC will furnish the energy to operate the light.
- (3) The light may be mounted on an existing transformer or meter pole owned by LYREC at no extra cost to the member. If a new pole and conductor are required, the member shall pay actual costs.
- (4) State Highway Lighting
 - (a) The seller will furnish light and maintenance.
 - (b) Service to state highway interchange lighting is subject to the terms and conditions of the highway department standard contract for such service.

Rates - Metered Lights (Owned by Member) Rate Class 70

These will be served under the rate of the service they are metered by.

Rates - Metered Lights - (Rental) Rate Class 70

- (1) \$3.50 per light per month
- (2) LYREC will furnish light and maintenance.

Terms of Payment

The charge for the light will be billed to the member monthly along with the member's regular bill for energy at the location of the light.

Effective September 14, 2010
